TARIFF FORMAT

- A. Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.
- B. Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc., the most current page number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).
 - 2.1.1.A.1.(a).I.(i).(1).
- D. Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages). The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

The first option, the Debit Card/Debit Account, allows the inmate (via the Institution personnel) to set up his/her own account/card at the Confinement Institution; the second option, Prepaid Collect Service, allows the Called Party who receives collect calls from inmates to set up his/her own prepaid account.

SECTION 3 - DESCRIPTION OF SERVICE, (CONT'D.)**3.4 ICSolutions Prepaid Institutional Calling Services, (Cont'd.)****3.4.1 General, (Cont'd.)****A. Option A: Prepaid Debit Account**

With a Debit Card or Debit Account, each inmate has the option to transfer funds from his/her commissary account to purchase a debit card or have calls paid for directly out of the inmate's commissary account. This is accomplished by facility personnel or through a direct interface between the commissary system and the inmate phone system. This account is associated with the inmate's Personal Identification Number (PIN). When the inmate places a call, he/she has the option of calling collect or debit. Once debit is selected, the inmate enters the PIN and called telephone number. All deposits to the account are paid to and handled by the Institution. The Company receives payment from the Institution; it does not engage in direct monetary transactions with the inmate. Debit cards or Debit accounts may be funded in any amount subject to the requirements or restrictions of the Confinement Institution.

The Company's system automatically informs the caller of the Available Usage Balance remaining in the Prepaid Account, and provides prompts to place the call by entering the destination telephone number. Network usage is deducted from the Available Usage Balance in the account on a real time basis as the call progresses.

Available balances in the Debit Card or Debit Account are refundable. Debit Account balances are refunded automatically when the Commissary account is closed. Refunds of Debit Card balances are refundable upon request, typically after release of the inmate from the Confinement Institution. The Available Usage Balance expires six months from the date the last call or last activity is made on the account or card. No refunds of unused balances will be issued after the expiration date.

SECTION 3 - DESCRIPTION OF SERVICE, (CONT'D.)**3.4 ICSolutions Prepaid Institutional Calling, (Cont'd.)****3.4.1 General, (Cont'd.)****B. Option B: Prepaid Collect Service**

Prepaid Collect Service is available for those parties (Customers) who receive collect calls from inmates in Confinement Institutions. Upon request, a prepaid account is set up by the Company for the Customer. The inmate will receive an authorization code and instructions for accessing and using the service. If the payment into the account is provided via the Customer's credit card, credit verification procedures are carried out under the terms specified in Section 2 of this tariff. Deposits to the account are paid to and handled by the Company via arrangement with a specified financial institution. The Company does not engage in direct monetary transactions with the inmate.

The Company's system automatically informs the account holder of the Available Usage Balance remaining in the Prepaid Account prior to acceptance of the call. Network usage is deducted from the Available Usage Balance in the account on a real time basis as the call progresses. The account holder will also receive a reminder message when the account balance has one minute of usage remaining. All calls must be charged against an Account that has sufficient available balance. Calls in progress will be terminated by the Company if the balance on the Account is insufficient to continue the call.

Payments for Prepaid Collect Accounts and any Available Usage Balance are refundable upon request, typically after release of the inmate from the Confinement Institution. The Available Usage Balance expires six months from the date the last call or activity is made on the Debit or Prepaid account. No refunds of unused balances will be issued after the expiration date.

Initial or additional deposits to prepaid accounts may be made via selected retail outlets with which the Company may contract to receive Customer payments, or via Western Union, commercial credit card, debit card or e-checks. Payments may be made in any amount.

Prepaid Institutional Calling Services are available 24 hours a day, seven days per week. Access to telephone service by an inmate may be subject to time of day and usage restrictions imposed by individual Confinement Institutions. No minimum service period applies.

Network usage for Prepaid Institutional Calls is deducted from the Available Usage Balance in full minute increments. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest penny on a per call basis.

SECTION 4 - RATES, (CONT'D.)**4.5 Miscellaneous Charges****4.5.1 Billing Cost Recovery Fee**

In order to partially offset increased expenses associated with billing calls via local exchange carriers, a cost recovery fee may apply each billing period in which local or long distance collect calls are billed through a Customer's local exchange carrier. Where applicable, this fee will be charged only once per billing period regardless of the number of calls. The fee will not apply in any billing period in which no collect calls are billed via the Customer's local exchange carrier. This fee does not apply to prepaid services paid for by commercial credit card, check, money order or wire, or for services billed directly to the Customer by the Company.

Billing Cost Recovery Fee, per month where applicable, up to \$2.49

4.5.2 Voice Verification Service

Voice verification Service is an optional service that provides validation of the inmate's identity through voice verification technology for purposes of improved security and reduced potential of fraud and Customer harassment by inmates. This charge applies to automated calls placed by inmates of correctional facilities when such calls are provided through the Company's own processing equipment. Where Voice Verification Service is requested by correctional facilities, this charge applies in addition to all applicable institutional rates and charges as specified in this tariff.
